Capabilities Statement

Lights Inc is a Full-Service, Electrical Contractor

We service commercial, state, and federal facilities with an emphasis on conservation through energy efficient lighting, controls, and design.

Capabilities:

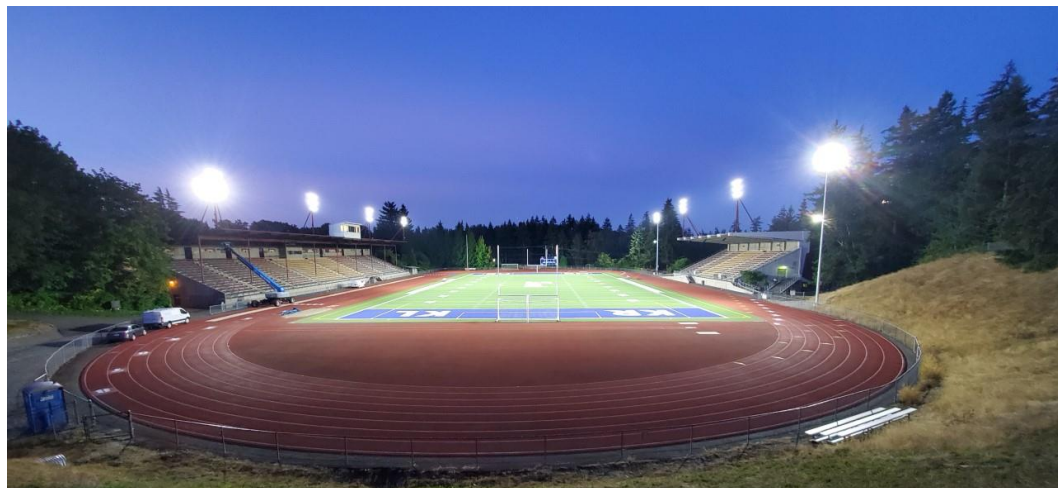

- ❖ Consultative Approach to Lighting Needs
- ❖ Design and Installation of Lighting Systems
- ❖ LED Upgrades for Interior and Exterior Lighting Systems
- ❖ Preventative Lighting Maintenance for Interior and Exterior

Differentiators:

- ❖ Washington State Certified Electricians
- ❖ Transportation Worker Identification Credential (TWIC) card holders
- ❖ Apprenticeship Program with Construction Industry Training Council (CITC)
- ❖ Boom Truck for Elevated lighting
- ❖ On Demand Service for Emergency outages 7 days a week
- ❖ Preventative Scheduled Lighting Maintenance as a cost savings measure

Past Performance:

- ❖ French Field Stadium Lighting – Kent, WA 2020
Installed Energy Efficient Stadium Lighting with new control system and new 70-foot pole lights.
- ❖ Lakeside Middle and High School – Seattle, WA 2020
Complete interior retrofit of classrooms, hallways, offices, and exterior fixtures around each private school campus.
- ❖ WA State Ferry Terminals Interior/Exterior LED Lighting – 2019-2020
Installed Energy Efficient Lighting at 18 different Ferry Terminals across the Puget Sound.
- ❖ Safeway Distribution Center – Auburn, WA 2018-2019
Installed Energy Efficient Lighting throughout a 1.2 Million Square Foot warehouse.

Awards, Recognition, Professional Organizations:

- ❖ Professionals Without Borders (PWOB) – Non-Profit
Preferred contractor for energy conservation work in third world countries.

Most Recent Projects:

- ❖ Liberty Orphanage – Ladyville, Belize 2019
Energy analysis of campus. Installed Energy Efficient Lighting across campus reducing energy demand by 50%.
- ❖ Trade Ally Network – Approved Participant

Testimonials:

"When I hear Lights Inc is brought on to take care of a job with a customer we've working with, I get to relax! I know our original project goals will be well-executed, problems and unknowns will be professionally communicated, and the client will receive excellent service."

Quintin Barnes
VP, Sales & Marketing
206 765 0849
qbarnes@allumia.com

"I want to offer my testimony for the services provided by Lights Inc. Our distribution center went through a complete re-lamp to all LED. Lights Inc. performed the entire retrofit where they dealt with low and high voltage fixtures as well as bringing issues from previous retro fits to our attention and getting them repaired to code. Their entire team was courteous and professional, very attentive to our questions or concerns and they were extremely flexible for our 24-hour operation. I would recommend Lights Inc. as a preferred contractor."

Jeremy Kunstman
Maintenance Manager
Safeway Distribution Center
